

### Speaking Activity Worksheet

Practice using Praat to record your own voice. The waveform diagram in the upper window shows you how long your vowels are; the pitch diagram in the lower window shows you how high your voice rises on a syllable. Compare your waveform and pitch diagrams to the ones on this worksheet.

I have to get to the airport by 7:30—my flight leaves at 9:00.	
<b>Airport</b>	 The Praat analysis for the word "Airport" shows a waveform with three distinct peaks and a pitch diagram with three corresponding blue curves. The first curve is a high, short peak, the second is a lower, longer peak, and the third is a high, short peak.
I'll bring my laptop to the meeting so I can access my files.	
<b>Laptop</b>	 The Praat analysis for the word "Laptop" shows a waveform with three distinct peaks and a pitch diagram with three corresponding blue curves. The first curve is a high, short peak, the second is a lower, longer peak, and the third is a high, short peak.
Her pendant is shaped like a teardrop.	
<b>Teardrop</b>	 The Praat analysis for the word "Teardrop" shows a waveform with three distinct peaks and a pitch diagram with three corresponding blue curves. The first curve is a high, short peak, the second is a lower, longer peak, and the third is a high, short peak.

Sometimes a rainbow forms in the mist around the waterfall.
